Item 1) Changelog

1. We have changed the multiplicities of Finder -> Category and Finder -> Warranty. Before the both of them were 0..*->0..* and now they are 0..*->1.
2. Actor had the attribute make, now just HandyWorker has it.
3. The attibute comment of Application has been deleted because we already had the Customer comments and the HandyWorker comments.
4. In the entity Note we have changed the atributes hwComment and customerComment, both of them were a String object and now they are a Collection of String. In addition, we added the attribute refereeComment.
